Bengaluru, India

EXPERIENCE

Skellam AI

Software Development Engineer

03/2023 - Ongoing Bengaluru

- Developed and integrated a customer loyalty program feature for a web application using Angular, HTML, CSS, SCSS, TypeScript, JavaScript, Java, Spring Boot, MySQL, and PostgreSQL, improving user engagement, retention, and overall customer satisfaction.
- Collaborated with design teams and stakeholders to translate business and user requirements into intuitive user experiences, following agile methodologies and participating in design reviews and user testing.
- Contributed to the continuous improvement of application architecture and performance, enhancing system reliability, scalability, and end-user experience.

Tata Consultancy Services

Assistant System Engineer

01/2021 - 03/2023 Bengaluru

- Developed and delivered project features as a collaborative member of an agile Scrum team, ensuring the timely completion of tasks in a project life cycle management web application.
- Designed, developed, and enhanced user interfaces in close collaboration with clients and design teams, resulting in intuitive and visually appealing user experiences.
- Implemented backend APIs for diverse features, including Mailers, Reports, and Batch jobs, enhancing the application's functionality and facilitating seamless data exchange.
- Proactively identified and resolved over 90 performance bottlenecks and bugs, optimizing the application's user experience and ensuring high quality standards through unit tests, code reviews, and adherence to industry best practices.

Someshwara Software Pvt Ltd

Game Developer Intern

07/2019 - 10/2019 Bengaluru

- Designed and developed a 3D Cube tic-tac-toe game using Playcanvas WebGL game engine.
- Developed 3D assets, user interfaces, and game logic used in the game.
- Developed game-playing AI using the Mini-max algorithm.
- Collaborated with other team members for game design and review.
